

**Directions for Alternative Route due to Partial Trail Closure along Rail Corridor South
(After Jalan Kilang Barat to Block 138 Jalan Bukit Merah) 2025 to July 2026**

A section from Jalan Kilang Barat to Block 138 Jalan Bukit Merah of the Rail Corridor trail will be closed in phases as the trail has deteriorated due to wear and tear over the years. To address these immediate safety concerns, and ensure future long-term trail integrity and durability, we will be upgrading and strengthening the foundation of the track as part of the repair works.

The repair works will be carried out in two phases and the following section of the trail will be affected:

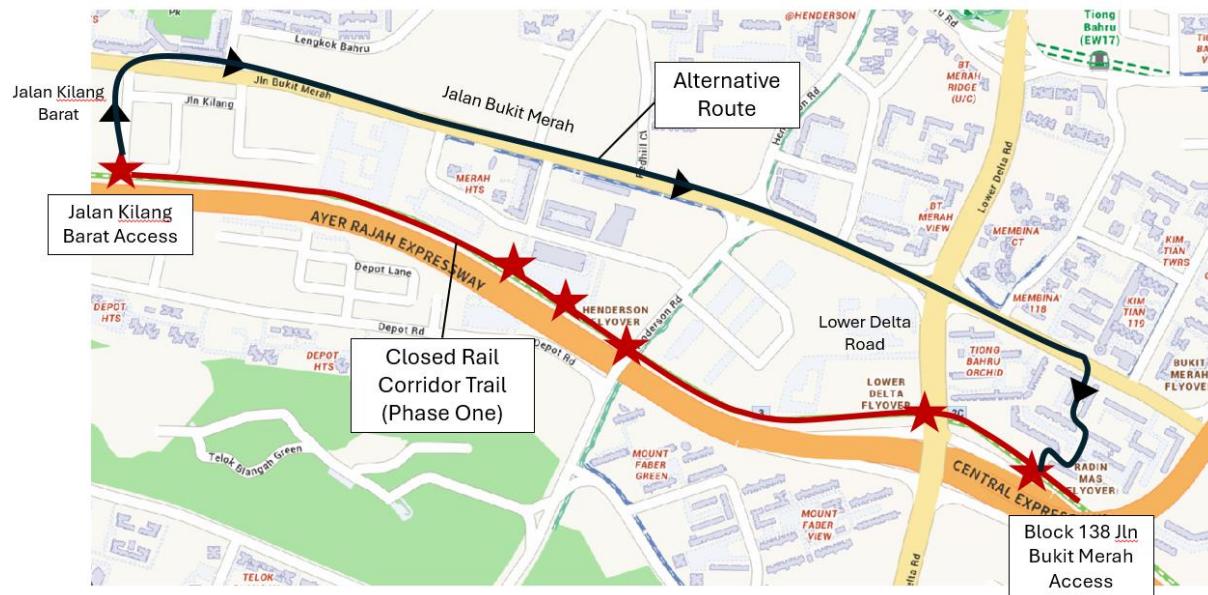

1. For the first phase, the trail from after Jalan Kilang Barat access to Block 138 Jalan Bukit Merah access will be closed for repair, with works expected to be completed by July 2026. From July 2026, after phase one is completed, the trail from Jalan Kilang Barat access to Henderson access will be reopened for use.
2. For the second phase, the trail from Henderson access to Spooner Road access will be closed for repair, with works expected to be completed by July 2027.

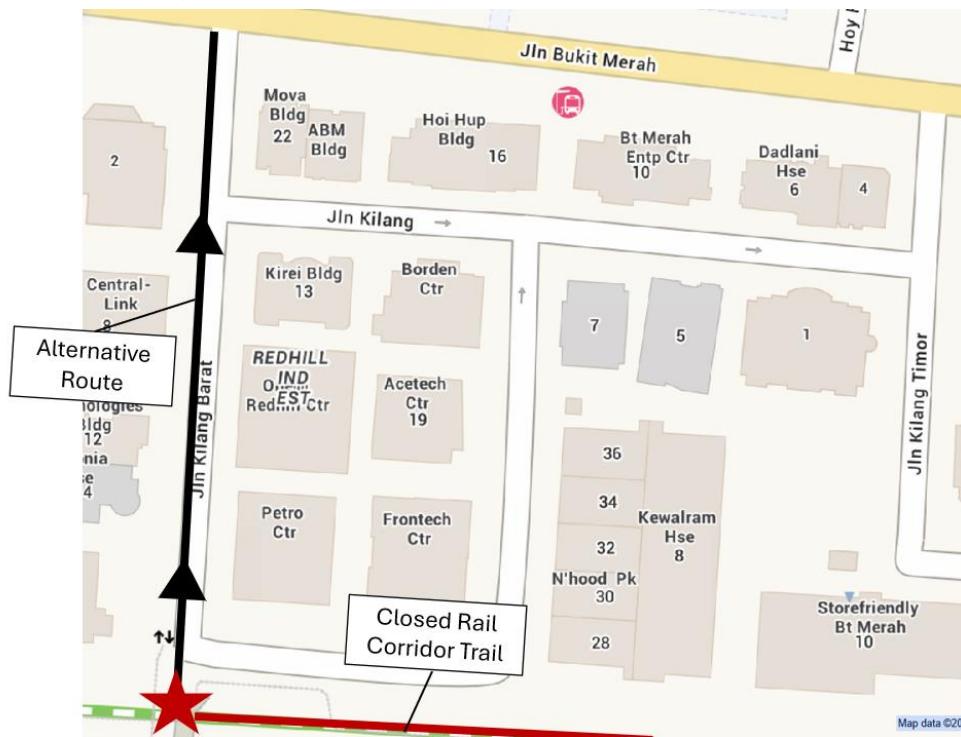

Please refer to the next page for directional instructions on the alternative route.

Directions for Alternate Route for Phase One (from Jalan Kilang Barat to Block 138 Jalan Bukit Merah)

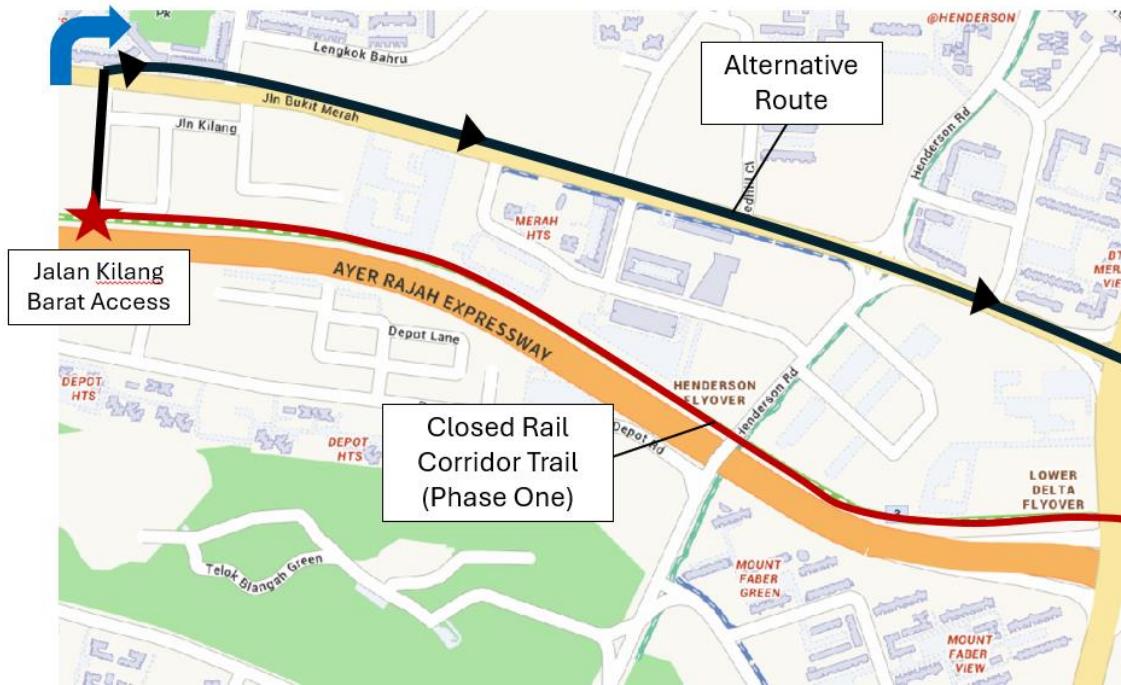

To connect between Jalan Kilang Barat and Block 138 Jalan Bukit Merah, you may exit Rail Corridor via Jalan Kilang Barat and utilise the pedestrian footpath along Jalan Bukit Merah to commute to Block 138 Jalan Bukit Merah.

1. Exit Rail Corridor via Jalan Kilang Barat access and walk/ cycle down Jalan Kilang Barat for 200 metres (in black):

2. From Jalan Kilang Barat, turn right onto Jalan Bukit Merah and continue on Jalan Bukit Merah for 2 kilometres.

3. Turn right at Block 110 Jalan Bukit Merah and continue towards Block 138 Jalan Bukit Merah Access (200 metres).

We appreciate your understanding while the trail is closed for repair. If you have any questions, you may contact us below:
